NEWS

Air Pollution
[Russia Mulls Rules on Volatile Organic Compounds](#)

ST. PETERSBURG, Russia Proposed legislation published May 5 by the Russian government would require regulation of volatile organic compounds from fuel in four major ports. The measure is designed to comply with Annex VI of the International...

Biotechnology
[Scientists Urge Diverse' Weed Management Approach to Combat Herbicide Resistance](#)

Growers across the United States need to adopt a diversified approach to weed management to mitigate the development of herbicide-resistant weeds, a group of scientists said May 10....

Budget
[House Appropriators Expected to Mark Up EPA Bill in June; Inclusion in Omnibus Likely](#)

Legislation that would fund the Environmental Protection Agency in fiscal year 2013 is expected to be marked up by the House Appropriations Committee in June, but the bill is unlikely to be considered on the House floor, Rep. Michael Simpson...

Climate Change
[Carbon Emissions From Oil Sands Crude Lower Than Suggested by EU, Report Says](#)
VANCOUVER, B.C. Crude oil produced in Alberta's oil sands has a lower carbon footprint over its life cycle than has been suggested by a European Union proposal assigning pollution ratings to transportation fuels, according to...

Climate Change
[Case Filed by Youth Plaintiffs May Not Be Matter for the Courts, Federal Judge Says](#)
A lawsuit in which youth plaintiffs want the court to order the federal government to take more action on climate change may not be an appropriate matter for the courts, a federal judge said May 11 during a hearing on motions to dismiss the case...

Climate Change
[EPA Renews Greenhouse Gas Data Collection](#)
The Environmental Protection Agency intends to renew an information collection request with the White House Office of Management and Budget as part of its mandatory greenhouse gas reporting requirements. EPA announced the renewal in a Federal...

Drilling
[Mechanical Failure, Human Error Led To Wyoming Gas Well Blowout, Probe Says](#)
DENVER The Wyoming Oil and Gas Conservation Commission has released a report stating that mechanical failure was the chief cause of a recent blowout of a natural gas well near Douglas, Wyo....

Drinking Water
[EPA Releases Another Set of Test Results Finding No Violations in Dimock Water Wells](#)
The Environmental Protection Agency released a fourth set of test results May 11 for water wells in Dimock, Pa., with findings that none of the samples violated regulatory standards for drinking water....

Endangered Species
[FWS Solicits Additional Voluntary Conservation Ideas](#)
The U.S. Fish and Wildlife Service said May 11 that it will extend a public comment period through July 13 to solicit additional ideas on how to revise regulations to encourage more voluntary partnerships with private landowners to protect...

Energy
[California Legislature Passes Bills to Ease Reviews for Mojave Desert Solar Plant](#)
LOS ANGELES California lawmakers May 10 approved legislation to expedite approval of a utility-scale solar power project planned for public lands in the Mojave Desert that environmental groups say would harm vital habitat for threatened...

Environmental Justice
[DOT Order Says Environmental Justice Should Be Considered Early in Planning](#)
Government agencies should consider environmental justice issues early in transportation planning to avoid disproportionately high and adverse effects on minority and low-income populations, the Department of Transportation said...

Hazmat Transport
[Prohibition on International Mailing Of Lithium Batteries Begins May 16](#)
The U.S. Postal Service is revising its mailing standards to prohibit the outbound international mailing of lithium batteries and devices containing lithium batteries, according to a final rule....
